*Just bag it!*

## EC 44

High performance grain crimper for all types of cereals and corn with bag filling capacity

The mobile crimper named the EUROCRACKER is equipped with two crimper units with V-shaped discs, which do not need as much power in comparison with conventional cylindrical rollers. Thanks to the various circumferential speeds at the disc's junction point, the grain is disrupted better and more evenly. The machine preserves the grain in a bag with a diameter of 1.5 to 2.4 meters, or a stainless steel discharge conveyor can be attached to the machine.

Your Dealer:

- » High-quality V discs made of refined steel
- » Belt drive with low noise and low maintenance frequency
- » High driving comfort during equipment transport

## Basic features:

- Hopper with a volume of 3.0 cubic meters
- Platform on an IBC barrel with volume of 1000 liters
- Belt drive – silent operation
- Centralized lubrication points outside the machine
- Tunnel exchange system
- Hydraulic sliding door under the hopper
- Air transport brakes
- Ladder to the hopper
- Inspection probe for sampling the grain

## Optional equipment:

- Tunnels 1.5m, 2.0m, or 2.4m
- Discharge auger conveyor instead of a tunnel
- Hopper volume increase to 7.0 cubic meters
- Chemical applicator with nozzles
- Tandem axle with suspension

## Technical details:

Tunnel performance	m	1.5 / 2.0 / 2.4
Tractor power	Hp	120 - 180
Machine power	T/h	20 - 40

### Machine dimensions:

Length	mm	6230
Width	mm	2410
Height*	mm	3215
Machine weight*	kg	4380
