

# Net Wrap YOUNIVERSE

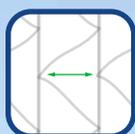

---

**Perfect visibility  
on crops**

## NX Exclusive Technology

► **Medium sized mesh**  
NX is a performing solution that allows to produce net wraps with reinforced and thicker threads.

► **Thicker & Stronger chains**  
Novatex NX mesh is made of stronger and thicker threads, ensuring higher strength and more ability to withstand repetitive handling.

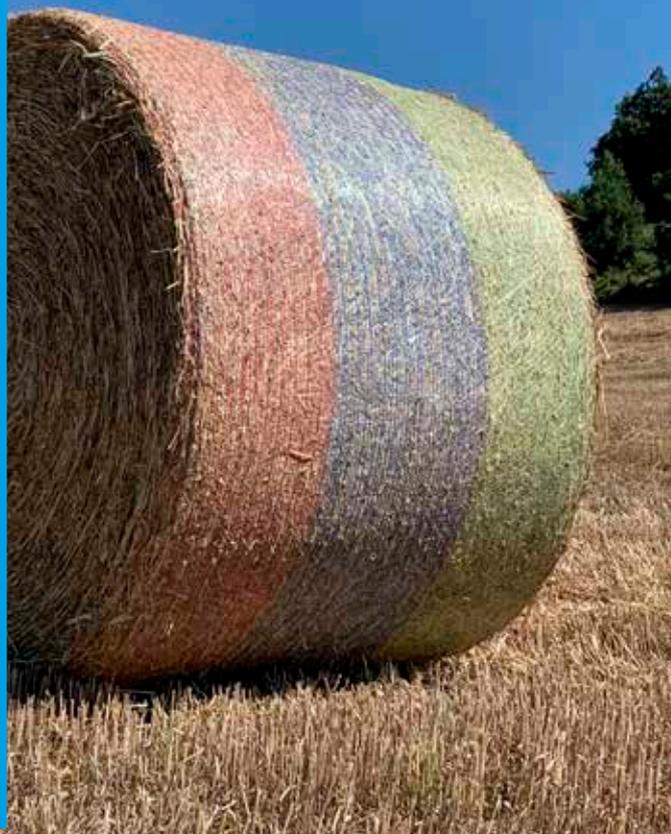

► **Better cling on the crops**  
The NX Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME netwraps hook up fast and easily.

► **Mesh with fewer knots**  
Knots are the critical points of any thread. Novatex NX net wraps have half the number of knots with respect to standard netwraps.

► **Flexible geometry**  
The reduced number of tension points (knots) aids the natural movement of the weft, leaving it free to stretch in width.

Youniverse is a revolutionary net wrap which transforms the relationship between men and their work, achieving a balance never experienced before. Thanks to its Technology, Youniverse significantly improves round baler performance. Two lengths are available: 2850 and 3850 meters.

Youniverse is the sum of all the best features of a premium net wrap, to retain, hold and protect forage until it's needed, snag-free and easy to remove when ready to feed out the bale. New bright colours have also been designed to guarantee optimal visibility on the bale, both for light and dark-coloured crops.

Width: 123 | Length: 2850 m - 3850 m

Youniverse improves the performance of the baler

Find out what Novatex means by resistance

Length	2850 m	3850 m
Width	123 cm	123 cm
Max Roll Diameter	23,5 cm	27 cm
Mesh Type		*NX
